System requirements
CADKON+ 2020
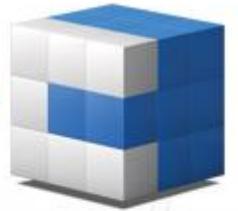

System requirements

Recommended system requirements:

- Windows 10 (64-bit versions only)
- processor Intel ® Core i5 or AMD® equivalent and higher
- 8 GB RAM memory
- 3,5 GB disk space for program files installation
- dedicated graphic card*
- SSD system disk
- Microsoft .NET Framework 4
- Microsoft Visual C++ Redistributable 2008, 2010, 2012 a 2015

*Note:
Drawing speed while zooming, panning, rendering, 3D displaying etc. is greatly influenced by your graphic card. We recommend to use a middle class „game" graphic card or professional series of graphic cards Nvidia Quadro or AMD FirePro.
Regular update of graphic card driver is also important. Drivers can significantly influence performance and stability and we therefore recommend to update them every time you install a new version of CADKON+ or at least once a year.

Minimal system requirements:

- Windows 10, Windows 8.1, Windows 8, Windows 7 (64-bit versions only)
- processor Intel ® 3rd generation Core i3.0 AMD® equivalent
- 4 GB RAM memory
- 3,5 GB disk space for program files installation
- Microsoft .NET Framework 4
- Microsoft Visual C++ Redistributable 2008, 2010, 2012 a 2015
